

How to create your Christmas Angel puppet craft

1. Gather your supplies: scissors, brads and string.
2. Print the Christmas Gabriel Angel paper puppet on card stock paper.
3. Cut out the Christmas Gabriel Angel design pieces.
4. With small sized brads, poke through the marked holes to put the Christmas Gabriel Angel together.
5. Use the diagram to attach the string to the indicated brads for moving the puppets arms and legs.
6. Once the Christmas Angel is assembled your puppet is ready to play with or punch out a hole near the top of her halo and put a string through to hang as a decoration.
