November 08, 2021

Description

“Winter at Home” is a 40-page activity guide that uses the vast collections and expertise of the Smithsonian to spark learners’ creativity and imaginations as they explore their homes and neighborhoods this winter. The guide is filled with hands-on activities, puzzles and games that students can engage with to explore topics in STEM, history, culture and the arts. The guide features bilingual Spanish/English language content.

“Winter at Home” invites learners to look at their homes and neighborhoods in new ways. Learners are encouraged to have fun at home, with activities such as inviting a bird to breakfast at your windowsill, decoding a message in your bathroom mirror and recreating artworks using clothing from your closet as a palette.
