

How to create your Gingerbread Man puppet craft

1. Gather your supplies: scissors, brads and string.
2. Print the Santa Claus paper puppet on card stock paper.
3. Cut out the Santa Claus design pieces.
4. With small sized brads, poke through the marked holes to put the Santa Claus together.
5. Use the diagram to attach the string to the indicated brads for moving the puppets arms and legs.
6. Once Santa Claus is assembled your puppet is ready to play with or punch out a hole near the top of his hat and put a string through to hang as a decoration.
