## The Marine Debris Song

## Lyrics:

A hungry fish looked for some lunch, but what he found you shouldn't munch.

He saw some eggs (at least he thought), but when he bit, he felt distraught.

You see those eggs were plastic bits, so when he ate, then he felt sick.

How can we help our poor fish friend? We can help out-it's not the end!

We can pick up the trash we use. Reduce, reuse, recycle, too!

We'll do our part-that is the key! Together we'll stop marine debris!

(Lyrics by Krista Stegemann)
