

Tiana's Crown

1. Print out the crown on cardstock or regular paper. Cut out the white sections in the top of the crown with a craft knife. Do not allow children to use the craft knife. Then cut out the crown and the extensions.
2. Put glue on the end tabs. Place each extension on the appropriate end and glue into place. Measure the crown around the child's head and then tape or glue the ends of the extensions together. You can cut off part of the extensions, if necessary.
3. Use bobby pins to secure the crown to the hair for a sturdy hold.
