Use the clues below to fill in the blanks and complete the National Inventors Hall of Fame® (NIHF) word search.

- NIHF Inductees Arthur Fry and Spencer Silver created \_\_\_\_\_, a modern office product with an adhesive strip for repositionable note taking.
- NIHF Inductee Chieko Asakawa helped visually disabled individuals navigate the internet through her invention of the \_\_\_\_\_.
- NIHF Inductee John Phillip Holland was issued a patent in 1892 for a submergible boat, commonly known as a \_\_\_\_\_.
- Hall of Famer Carolyn Bertozzi created a new field of chemistry called \_\_\_\_\_ chemistry.
- The Wright Brothers achieved the first powered, sustained and controlled flight of an \_\_\_\_\_, which has become a main form of transportation today.
- In the late 1800s, NIHF Inductee Josephine Garis Cochran invented the first \_\_\_\_\_, which has become a standard cleaning appliance in most American kitchens.
- NIHF Inductee Ambrose Swasey made the \_\_\_\_\_ more powerful and accurate, improving views of planets and stars.
- The \_\_\_\_\_ started as a luxury item owned by only the most well off in society but became a household staple to keep all Americans on time thanks to NIHF Inductee Eli Terry.
- Hall of Famer Stephanie Louise Kwolek discovered \_\_\_\_\_, the material of choice for bullet-resistant vests and many other applications.
- Granted a U.S. patent in 1973, Hall of Famer Ralph Baer pioneered the field of interactive \_\_\_\_\_, adding a modern and digital layer to the gaming industry.

- NIHF Inductees Arthur Fry and Spencer Silver created **Post-It® Notes**, a modern office product with an adhesive strip for repositionable note taking.
- NIHF Inductee Chieko Asakawa helped visually disabled individuals navigate the internet through her invention of the **Home Page Reader**.
- NIHF Inductee John Phillip Holland was issued a patent in 1892 for a submergible boat, commonly known as a **Submarine**.
- Hall of Famer Carolyn Bertozzi created a new field of chemistry called **Bioorthogonal** chemistry.
- The Wright Brothers achieved the first powered, sustained and controlled flight of an **Airplane**, which has become a main form of transportation today.
- In the late 1800s, NIHF Inductee Josephine Garis Cochran invented the first **Dishwasher**, which has become a standard cleaning appliance in most American kitchens.
- NIHF Inductee Ambrose Swasey made the **Telescope** more powerful and accurate, improving views of planets and stars.
- The **Clock** started as a luxury item owned by only the most well off in society but became a household staple to keep all Americans on time thanks to NIHF Inductee Eli Terry.
- Hall of Famer Stephanie Louise Kwolek discovered **Kevlar® Fiber**, the material of choice for bullet-resistant vests and many other applications.
- Granted a U.S. patent in 1973, Hall of Famer Ralph Baer pioneered the field of interactive **Video Games**, adding a modern and digital layer to the gaming industry.
